The history of finding the church book

To Glenn Warner Great Grandson of Uriah Warner,

I don't know if the history of finding it is there.

Somebody sent a message thru one of the mail lists and I responded.

She had gotten it from a flea market or sale up in Vermont and, being a decent person, wanted to place it in the hands of a descendant. I then

had to "plead" my case and establish proof to her that I was indeed a direct descendant. After I convinced her of this, she then sent me the

book. She was not interested in "selling" it, only to retrieve any expense for mailing. You don't meet people like that every day. Evidently, she

attends many flea markets and sales all the time, so was unable to pinpoint any closer data on where exactly she obtained it. I thought perhaps a

descendant of her daughter Mary Jane Petry (which only could have been a son of Charles F. Petry since the other two didn't have any children) may

have moved up that way. I haven't see where any of Uriah's descendants were in Vermont, so how it got to Vermont is still a mystery.
